DENVER, July 8.—The Chicago Convention cheered its master for forty-six minutes.

The Denver Convention cheered its master this afternoon for an hour

What was expected to be a short, perfunctory session, to be folburger's Hotel and some twenty small cottages and outhouses located lowed by a recess until 8 o'clock to-night, to fight over the ereport of the Committee on Credentials, was turned into a remarkable demonstration for William Jennings Bryan. The Peerless One's managers seized on The fire began in the basement of Zehden's and jumped across to the moment when a fight was being organized to loosen the grip of the master to work the crowd into a turnult of cheering.

The Committee on Credentials after an all-night session, in addition to throwing out the McCarren delegation from Brooklyn, decided to unseat eight of the Guffey delegates from Philadelphia and thus put Guffey off the National Committee. This caused a tremendous row.

Fourteen States, including New York, joined in a protest. It was planned to have the convention take a recess until 8 o'clock to-night to give the two sides of the committee a chance to make up their reports.

### SENATOR GORE SET THEM GOING.

A motion for a recess was made, but Temporary Chairman Bell good naturedly permitted the crowd to have a little more fun, and Senator Gore, of Oklahoma, was introduced to make a speech. He had not spoken ten minutes when he mentioned the name of Bryan. Then the tumult began, and it continued until all records of demonstrations in conventions had been broken. When there was a sign that it was dying out some Bryan boomer started it again. Standards of States were Flushing, Whitestone and other Long Standards of States were leiand points for assistance, and when Selzed and carried to the platform and there placed in a group, while the bearers danced around them like wild Indians.

### NEW YORK HELD BANNER AGAINST HORDES

New York was one of the few States not responsible in the noisemaking, gathered around the New York delegation and atempted to seize the banner of that State. Tammany men, backed by several husky Sulof the Brooklyn anchorage on the south livanites, seized the standard and wrestled with the crowd. When the "L" road of the Brooklyn Bridge at 11.06 battle was over New York's standard was still in its place.
